The Legend

Weequahic High School

June 1964

Volume XXXI

Simon Chasen

Tova Malamut

O dark, dark, dark, amid the blaze of noon . . .

To our friend and advisor,

Mrs. Jennie Twardus:

Thanks,

The Class of 1964

Introduction

Our yearbook is about things and people. You will see both. This is an account of our four years at Weequahic, seen through the rhythm of the activities of a year, through the abstract moods, the fads, the follies which have made our high school days what they were.

We open the *Legend* with the students; we close with the faculty. The students are, in one sense, the editors of this book; they have shaped class policy and ideas. Their pictures were placed at the beginning, acting as an introduction to the yearbook and to the memories we hope the *Legend* will awaken. We have presented the faculty at the end of our yearbook; for when we leave and close our books, the teachers remain as the link between our past and their future.

From cover to cover, the tangible facts and the intangible images of our four years at Weequahic have been presented. We have described the obvious: the 556 of us, the 1932 school house, overstocked by 1,000; the 10,000 volume library; the chairs, desks, mops, typewriters, water fountains, gym lockers, and geometry compasses.

We are physically aware of these things, but what of that which we can not see or touch? We know certain indefinable qualities exist; we sense and feel that they are important to us. And yet, these other images are difficult to describe; they are the inner reflections of the individual. The photographs, essays, and satirical cartoons in the yearbook are representative, we hope, of this spirit.

before school

A boy arrives at his homeroom at 8:29 a.m., after having conversed with his friends in another homeroom for fifteen minutes. During the homeroom period he hears club notices and college announcements, and is asked to pay his class dues, to support the *Calumet,* or to contribute to various charities. Since last June's Supreme Court decision, he has not had to listen to the reading of the Bible or to say a prayer, although he still must salute the flag. In the remaining three or four minutes of homeroom he does some last-minute homework and studying — or perhaps glances at the *New York Times.*

At 8:40 the boy leaves his homeroom to go to his first period class. He soon finds himself daydreaming of last Saturday night's dance or of what kind of car he will get for his seventeenth birthday. Or he might even listen to the teacher. Next period his history notes are full of doodles; clock-watching is the symptom of his fear that his teacher will call on him. Finally lunch comes to halt the pace of the school day, and the boy eats his home-made sandwich or the 37¢ special in the midst of cafeteria hubbub.

The 2:35 bell officially ends the school day; however, our boy might very well remain to attend athletic practice or a favorite club. On other days he goes to the library, a part-time job, his favorite hangout, or merely home. By sundown he is usually home.

There are as many kids putting in as many long hours, straining themselves and working just as hard in the unpublicized as in the publicized sports.

But although soccer, cross country, and wrestling draw less publicity, their records are as good as, and sometimes better than, those of the "major" sports. Here they are.

THE CALUMET

"You Live In a Good School — Be Proud of It"

ne XXXII, No. 1 | Weequahic High School, Newark, New Jersey | October 24, 1

nold Kaplan Editor-in-Chief
w Editors in All Divisions

The 32nd running of the Calumet is just getting underway at quahic with the first race (issue). The horses are approaching gate with their editors and everyone can sense the excitement e air as the horses and jockeys await the gun to sound.

Wearing number one on his back is the odds-on favorite, or-in-Chief, mounted by Arnold Kaplan. It looks as if it will long, hard race for Chief, but I am sure Arnold will be work- as hard as possible to win the grand prize.

Riding on the number two horse, Feature, is Arlene Gross. ure is noted for her antics, both amusing and serious, on the and with Arlene riding we will surely see many strange and sing incidents on the track today.

Neus (pronounced noo-z) will wear number three with George mb riding on his back. In his last race Neus (pronounced z) in a thrilling finish won by a nose, I wonder if that is where saying "A Nose for Neus (pronounced noo-z)" is derived.

The most muscular looking of all those running today is number Sport. He will have to be because the horse will be carrying one, but two jockeys, Jonnie Kaplan and Jerry Solomon, who the co-owners of this beast.

One of the most colorful of the six horses running is number Art, with Frances Schecter riding. She is noted for her beautiful and graceful stretch runs. The last horse is Photo, number six, ying that gay jockey with a flash, Mark Olshan. Many of you may ember Photo in the West Derby when he won it in a photo finish.

Manager of this race is Rachele Lowenbraun. Trainer for all six es and many more is that wonderful lady of the track, Mrs. ke. The judges are you who are reading this article at the present .

Ask Mr. Epstein

1. We hear a great deal, Mr. Epstein, about alleged "ratings" igh schools. Once and for all, are there such ratings? If so, does Weequahic rank with a school the caliber of Columbia High outh Orange, and has Weequahic's rating gone up or down in the ten years?

Answer: I know of no agency local, state, or national which rates schools and ranks them in an order of any kind. Any belief that such ratings are made is purely fiction. For that reason I cannot answer the rest of the question.

2. Will Weequahic High School's outmoded gymnasium ever be ovated; if so, when?

Answer: We have for a long time been worried about our crowding in gym. As a result of this we presented the problem to the superintendent of schools. The addition of a new gym and other facilities including extra science laboratories and extra cafeteria space has been presented by the Superintendent to the Board of Education and has been accepted as part of the immediate building program. Therefore, I am hoping that in the near future (2-4 years) we may get a new gym.

3. Have you any advice for the Weequahic student body regarding y habits?

Answer: Let me suggest some simple ideas which most students have heard many times:

1. Read, read, read, read!
2. Find a place where you can do your work without distraction.
3. Always make sure you understand what's going on (a dictionary always helps).
4. Never fall behind in your work.

4. Do you forsee the discontinuation of Weequahic classes being in Chancellor Avenue School; if so, when?

Weequahic Welcomes 21 Teachers; All Agree: Wigwam is Wonderful!

This year Weequahic has 21 new teachers, representing every department in the school.

Born in Germany, Mrs. Septee, our new Hebrew teacher, came to America at the age of five. A graduate of Weequahic High, she attended Brandeis University where she received a fellowship from the university to study Hebrew at the Hebrew University jn Jerusalem for a year. Mrs. Septee has her Master's Degree and is writing a thesis for her doctorate.

Because she loves Hebrew and wanted to convey her love of the language and culture to other people, she became a Hebrew teacher.

Before coming here, Mrs. Septee taught for five years at the Beth El Hebrew School. This will be the first time she has ever taught in a high school. When asked whether or not she was pleased with her students, she replied, "I am delighted with what my students know, and the attitude of all my pupils is inspiring."

Mr. Janowitz

Dr. Kessler

Mr. David Janowitz, the newly appointed head of Weequahic's English Department, has a B.S. and an M.A. from CCNY. He spent the summer at the University of Colorado where he was a member of a workshop for English teachers. A man of many talents, he taught math during the war and has been active in the theatre as an actor and as a director. A "pretty good" tennis player, Mr. Janowitz has also spent some of his spare time conducting family camping trips all over the United States. When asked to name his interests, he said, "I have had a profound interest in city affairs and the school system for the past two years." With a smile Mr. Janowitz added, "I am glad I have a strong pair of legs, for Weequahic is a bustling, exciting and very big place."

As for his plans, Mr. Janowitz said he hopes that in a year or two Weequahic will have the very finest English Department in the United States.

The position of head guidance counselor, formerly held by Mrs. Perugine, has been filled by Dr. Milton S. Kessler. Previously, Dr. Kessler, who holds a B.A., M.A., and Ph. D. taught history at East with some part-tim counseling.

In the two years of its existence the Weequahic fund has enabled many students to attend college wh otherwise be able to go. This year with the intent of inc number of scholarships which can be administered, Rous, who heads the project, has outlined three ways for and enlarging the fund: To organize each of the class graduated from Weequahic; to try to get as many alumni to donate ten dollars or more to the fund; and to collect the Weequahic community as a whole.
